

DOCUMENT 11

100 ADDITIONAL CORPORATE INDUSTRY & MAJOR EMPLOYER TARGETS

Mortgage • Telecom • Microsoft & Technology • Fintech • Auto Services • Home Services • Logistics • Education • Senior Care

Purpose: Expand the Student Impact Challenge prospect universe into additional industries with strong connections to financial literacy, technology, entrepreneurship, local communities, skilled careers, education and family wellbeing. Each target includes a recommended first approach. Inclusion is a prospecting recommendation only and does not imply current affiliation, endorsement or available funding.

Priority A = research/contact first. **Priority B** = secondary prospect. **CASH** identifies a prospect suitable for a funding conversation; **IN-KIND** means the first approach should generally focus on products, services, experiences, supplies or other non-cash value. Fellows must verify current programs and contacts before outreach.

MORTGAGE, HOUSING FINANCE & TITLE

#	Pri.	Organization	Who to Find	Type	Recommended Angle

99	B	Senior Helpers	Local Franchise / Community	IN-KIND	Caregiving, service and local partnerships
100	B	BAYADA Home Health Care	Community / Foundation	CASH	Healthcare education and community impact

Special Strategic Target: Microsoft

Microsoft should be approached as a Tier-A strategic technology prospect. The opening story should center on young people learning to identify real community problems, think entrepreneurially and develop solutions in a world increasingly shaped by AI and technology. Potential conversations can include financial sponsorship, AI/technology education, mentors or speakers, student experiences, and approved technology support. Fellows should not assume any Microsoft program, benefit or funding availability without current verification.

Fellow Research Rule

Before contacting any company on this list, verify the organization's current official website, relevant community/social-impact program, correct department, and current decision-maker. Use public professional information only. The fellow opens and qualifies the conversation; program leadership handles sponsorship negotiation, customized benefits, contracts, naming rights and sensitive documentation.
