115 EDUCATION, SKILLED TRADES, GOLF, ELECTRONICS, INFRASTRUCTURE & ENVIRONMENTAL PARTNER TARGETS

Colleges • Trade Schools • Golf • TV Makers • Roads & Engineering • Plants & Landscaping • Cleaning • Waste & Recycling

Purpose: Give Student Fellows a targeted prospect list for organizations that can contribute more than money. Depending on the category, the desired contribution may be a **scholarship, equipment, career experience, mentorship, campus experience, products, professional services, environmental project support, awareness or cash sponsorship**.

Important: This is a prospecting and training list, not a list of confirmed partners. Fellows must verify current programs, eligibility, decision-makers and official contact routes before outreach. No scholarship, award name, equipment donation, campus event, service contribution or sponsorship benefit may be promised until approved by program leadership.

Strategic Rules for Fellows

Colleges & universities: Do not lead with a generic corporate sponsorship request. Ask about scholarships, admissions/community partnerships, campus experiences, mentors, judges and career exposure.

Trade schools: Emphasize alternative career pathways, skilled trades, certifications, apprenticeships and partial/full training scholarships.

Golf: Prioritize experiences, equipment, clinics, prizes and youth-development opportunities; larger golf organizations may also fit cash sponsorship.

TV/electronics makers: Ask about equipment, technology prizes and education support as well as funding.

Infrastructure: Connect student problem-solving to roads, transportation, engineering, construction safety and skilled careers.

Plants/landscaping: Connect to beautification, gardens, trees and greener neighborhoods.

Cleaning/waste: Connect directly to the “Leave It Better Than You Found It” mission through cleaner neighborhoods, recycling, sanitation and environmental responsibility.

Potential Sponsored Recognition Concepts

Examples for leadership consideration include a **Clean Community Award**, **Green Community Award**, **Infrastructure & Safety Award**, **Skilled Trades Innovation Award**, or a named scholarship. Fellows may use these only as internal conversation concepts unless leadership has specifically approved the name and sponsor benefits.
