125 TRANSPORTATION, INFRASTRUCTURE, AEROSPACE, INSURANCE & PUBLIC-SERVICE PARTNER TARGETS

Rail • Bridges & Tunnels • Architecture • Construction • Space • Disaster Resilience • Insurance • Federal/Public Service

Purpose: Give Student Fellows a structured prospect list while teaching them that different institutions require different asks. Commercial companies may be appropriate for **cash sponsorship**; public agencies are generally better approached for **education, careers, STEM, safety and community awareness**.

Classification: SPONSOR = funding prospect • EDUCATION = careers/learning • COMMUNITY = awareness/public service • STEM = science/engineering • SAFETY = preparedness/safety. Fellows must verify official outreach programs and current contacts before outreach.

Government rule: Do not ask fellows to contact private personnel at law-enforcement or intelligence agencies. FBI, CIA and other government outreach must use official public-facing channels only. Fellows must not imply endorsement, partnership, access, security clearance or sponsorship by a government agency.

Fellow Strategy

Insurance: lead with cash sponsorship plus safer homes, roads, preparedness and financial education. **Architecture/construction:** combine sponsorship with design, engineering, skilled-trade and site/career experiences. **Transportation/public authorities:** prioritize speakers, careers, STEM and community awareness. **Aerospace:** prioritize engineering, innovation and STEM; corporate firms may also be sponsorship prospects.

Emergency/disaster organizations: focus on preparedness and resilience. **Federal agencies:** educational/public-service outreach only unless an official program states otherwise.

Potential Leadership-Level Recognition Concepts

Future approved concepts could include a **Community Resilience & Preparedness Award**, **Transportation & Road Safety Award**, **Built Environment & Community Design Award**, or **Space & STEM Innovation Award**. Fellows may not promise award naming rights or exclusivity without leadership approval.
