125 STOCK MARKET, INVESTMENT, BANKING, FINTECH & FINANCIAL LITERACY PARTNER TARGETS

Exchanges • Brokerages • Asset Managers • Investment Banks • Financial Data • Fintech • Venture Capital • Financial Education

Purpose: Give Student Fellows a structured financial-sector outreach list for **cash sponsorship, scholarships, financial-literacy education, entrepreneurship, career exposure, mentors and student experiences**. The goal is to help young people understand how businesses create value, how capital supports growth, and how responsible financial decisions affect individuals and communities.

Student-protection rule: The Student Impact Challenge should not encourage minors to trade securities, open brokerage accounts, buy particular stocks, use leverage/options, or treat investing as a game. Fellows must not provide investment advice or recommend securities. Outreach should focus on **age-appropriate financial literacy, economics, saving, entrepreneurship, careers and how capital markets work**. Government/regulatory organizations are educational-resource prospects, not commercial sponsors unless an official program expressly allows otherwise.

STOCK EXCHANGES, MARKET INFRASTRUCTURE & CAPITAL MARKETS

125	B	Independent Community Bankers of America	Community / Education	EDUCATION	Community banking and small business Ask: Banking careers, entrepreneurship and education

How Fellows Should Position the Opportunity

Do not lead with “teach kids to buy stocks.” Lead with **financial literacy, entrepreneurship, economic empowerment and careers**. A strong message is: “Help young people understand how businesses create value, how money and capital work, and how responsible financial decisions can strengthen families and communities.” For investment banks, asset managers and fintech firms, combine a sponsorship ask with speakers, mentors or career experiences. For exchanges and market infrastructure organizations, prioritize educational experiences and market-literacy opportunities.

Potential Leadership-Level Concepts

Future approved concepts could include a **Financial Literacy & Economic Empowerment Award**, **Future of Finance & Fintech Award**, or a supervised educational visit/experience involving a major financial institution or exchange. Fellows may not promise scholarships, investment accounts, stock prizes, naming rights, exclusivity, trading experiences or financial products without leadership and legal/compliance review.
