

DOCUMENT 25

155 IMMIGRATION, LOCAL AGENCY, AQUATICS, TAX, FITNESS, CREDIT, ENERGY & SENIOR-CARE PARTNER TARGETS

Immigration • Local Agencies • Pools/Water Safety • Tax/Accounting • Fitness • Credit Education • Energy • Natural Resources • Senior Living • Companion Care

Purpose: Give Student Fellows another practical outreach universe spanning community organizations, professional services, consumer companies, major corporations and senior-care providers. The strategy is to match each prospect with an appropriate request: **cash sponsorship, awareness, education, products, career exposure, community service or intergenerational experiences.**

Special safeguards: Immigration outreach must never collect a student's or family's immigration status or case information. Government agencies should be approached through official public channels and not presented as sponsors unless formally confirmed. Credit outreach must focus on education and financial wellness—not promises to “repair” credit. Senior-care outreach must protect resident/client privacy. Fellows must not provide individualized legal, tax, credit, medical or investment advice.

IMMIGRATION LAW, LEGAL AID & COMMUNITY SERVICES

#	P	Organization	Who to Contact	WHY FIT	ASK	SPECIAL RULE

155	B	BAYADA Home Health Care	Community / Partnerships / Local Leadership	Caregiving careers and support for older adults	Cash, career speakers, community-service projects	No health advice; no access to private client information

Fellow Strategy

Local agencies and immigration/community organizations: prioritize awareness, student referrals, public resources and career speakers. **Tax/accounting:** strong cash and financial-literacy prospects; also recruit accountants as career speakers. **Pool/aquatics:** combine water safety with engineering and local-business sponsorship. **Fitness products:** seek equipment/prizes and entrepreneurship/product-design exposure. **Credit education:** use reputable education/counseling organizations and avoid guaranteed-results language. **Energy/natural resources:** combine sponsorship with STEM, engineering and balanced sustainability education. **Senior living/home care:** consider student projects around loneliness, technology access, transportation, communication and intergenerational connection, subject to privacy and safety rules.
