

DOCUMENT 27

230 FINAL MISSING INDUSTRIES & PARTNER CATEGORY TARGETS

Telecom • Delivery • Restaurants • Retail • Home Improvement • Home Products • Safety • Cyber/AI • Sports • Associations • Real Estate • Printing • Electronics • Family Entertainment • Foundations

Purpose: Complete the major gaps in the Student Fellow prospect universe before shifting from list-building to disciplined execution. These categories add powerful opportunities for **cash sponsorship, awareness, technology, prizes, community access, career exposure, in-kind services and high-visibility experiences.**

Operating principle: A long prospect list is valuable only when the fellow understands the fit. Research the organization, identify the correct contact, personalize the outreach, make one clear ask, record the action, and follow up. Never imply that a company, team, foundation, celebrity or agency is a partner until written confirmation is received.

TELECOMMUNICATIONS, BROADBAND & INTERNET

#	P	Organization	Who to Contact	WHY THEY FIT	WHAT TO ASK FOR

Priority Guidance

Highest cash/STEM prospects: telecom, cybersecurity/AI, electronics, major retailers and selected sports organizations. **Highest local activation prospects:** restaurants, real estate, hardware/home improvement and professional/trade associations. **Highest in-kind prospects:** printing/signage/event companies, electronics retailers, toys/family entertainment and home-improvement companies. **Highest amplification prospects:** sports teams/leagues, celebrity/athlete foundations, trade associations and telecommunications/media-connected organizations.

The Next Phase

After this document, fellows should stop expanding categories unless a clear strategic gap is identified. The next operating priority is a **Master Outreach Command Center** that ranks prospects, assigns ownership, sets daily activity expectations, tracks follow-ups and measures meetings, proposals, sponsorship dollars, in-kind value and confirmed community partners.
