TOP 100 CORPORATE SPONSOR TARGET BOOK

90-Day \$1 Million Sponsorship Campaign — Ranked Starting Research & Outreach Universe

Purpose: Convert the sponsor universe into a named, ranked starting portfolio. Rankings are strategic planning judgments based on capacity, mission fit, youth/education/workforce relevance, New York relevance, likely partnership behavior, accessibility and 90-day usefulness. They are **not** claims that these organizations have agreed to sponsor, have open funding, or will accept the suggested ask.

THE TOP 100 IS A STARTING BOOK — NOT A PROMISE OF FUNDING.

CURRENT HIGH-CONFIDENCE PUBLIC SIGNALS

Current official public information strengthens the case for prioritizing several organizations: JPMorganChase is expanding financial-health education and K-12 personal-finance efforts; Google.org's \$75M AI Opportunity Fund supports education/workforce organizations and AI skills; Microsoft Elevate is focused on AI skills, educators and nonprofit capacity; IBM's 2026 Impact Accelerator RFP centered on AI for transformative education and workforce development; Verizon Innovative Learning targets digital inclusion and youth skills; and MetLife Foundation continues community-impact grantmaking. Target's current Community Engagement Funds cycle runs Aug. 3-Sept. 3, 2026 with grants of \$1,000-\$15,000, so Target should be pursued through both the live grant path and, separately, a broader corporate-partnership path where appropriate.

For all other targets, the fellow must verify current programs, eligibility, timing, contacts and pathways before outreach. Do not convert an old philanthropic program into a current funding claim.

RANKING LEGEND

Label	Score	Meaning
Tier A	85-100	Immediate priority; executive strategy and customized outreach.
Tier B	70-84	Strong pursuit; fellow-led with leadership escalation on engagement.
Cash-first	—	Primary objective is financial sponsorship; in-kind may be secondary.
Cash + in-kind	—	Pursue money while also presenting a strategically relevant non-cash contribution.

TOP 25 — EXECUTIVE PRIORITY

#	Organization	Sector	Score / Tier	Planning Ask	Why It Fits	Target Team	Approach
1	JPMorganChase	Finance	96 / A	\$150K-\$250K	Financial health, youth money skills, NYC/community opportunity	Community Impact / Corporate Responsibility / Community Banking	Cash-first; financial literacy + student problem-solving

98	UBS	Finance	78 / B	\$50K-\$100K	NY metro, financial literacy, education, community	Community Affairs / UBS Optimus / regional CSR	Cash + financial education
99	BlackRock	Asset Management	77 / B	\$50K-\$100K	Financial capability, careers, NY headquarters	Social Impact / Corporate Sustainability	Cash + financial/career skills
100	Bloomberg	Media / Finance / Tech	79 / B	\$50K-\$100K	NY, technology, financial literacy, media/careers	Bloomberg Philanthropies / Corporate Philanthropy	Cash + media/career exposure

TOP 25 — REQUIRED ACCOUNT-BRIEF WORK

Before major outreach to the Top 25, the assigned fellow should complete a one-page account brief. The score and ask in this book are hypotheses until current research validates them.

Brief Field	Required Research
1. Current official priority	What does the organization currently say it is funding/supporting?
2. Current pathway	Grant application, inquiry form, corporate partnership, local market team, foundation, CSR, warm introduction, etc.
3. Timing	Is the pathway open now? If not, is there another legitimate 90-day route?
4. Decision-maker	Verified name/title or appropriate department; never fabricate.
5. NY connection	Operations, employees, customers, headquarters, local giving, school/community relationships.
6. Primary ask	Exact amount and what it would enable.
7. Secondary ask	Lower cash option or high-value in-kind contribution.
8. Warm path	Board, business, community, political, school, alumni, employee or partner introduction.
9. First message	Customized reason this organization specifically should care.
10. Escalation	When founder/leadership enters the relationship.

DO NOT TREAT EVERY ASK RANGE AS AVAILABLE FUNDING

The planning ask ranges represent what the team may explore based on organizational scale and strategic fit. Actual asks must be adjusted after discovery. Some organizations have published grant limits or invitation-only processes. For example, Target's current localized Community Engagement Funds grants are \$1,000-\$15,000, while MetLife Foundation states that it does not review unsolicited partnership proposals and instead provides an inquiry form for potential alignment. Those rules must shape outreach.

FIRST-WAVE OUTREACH ORDER

Wave	Execution
Wave 1 — Top 10	Founder reviews account strategy; activate warm introductions; fellows finish contact/pathway research.
Wave 2 — 11-25	Launch customized outreach while Wave 1 meetings develop.
Wave 3 — 26-50	Senior fellow/fellow outreach; escalate positive responses.
Wave 4 — 51-100	Systematic personalized outreach; prioritize current application windows and warm pathways.
Continuous	Re-rank weekly. Promote emerging opportunities and demote prospects with poor timing, no fit or no legitimate pathway.

SPECIAL CURRENT OPPORTUNITY: TARGET

Target's official 2026 Community Engagement Funds page shows Cycle 2 open from **August 3 through September 3, 2026**. Eligible 501(c)(3) public charities and schools may apply, and grants range from **\$1,000 to \$15,000**. The program prioritizes areas including youth development and workforce development. This is a real near-term pathway, but it is a smaller grant lane than the broader corporate ask shown in the ranking book; keep the two pathways distinct.

SPECIAL ACCESS RULE: METLIFE FOUNDATION

MetLife Foundation's official grants page states that it **does not review unsolicited proposals for partnership** and directs interested organizations to an inquiry form for alignment and future opportunities. Fellows should use the proper pathway rather than sending a generic grant proposal.

PIPELINE RULE

None of these 100 organizations count toward the \$6 million qualified pipeline merely because they appear in this book. They enter qualified pipeline only when the evidence requirements in Documents 41-42 are met.

NEXT DOCUMENT

Document 44 — Top 25 Executive Account Briefs & First-Contact Strategy. This should go deeper on the first 25 organizations: current public program signals, exact outreach pathway, decision-maker department, tailored opening angle, primary/secondary ask, likely objection and leadership strategy.
