125 HOSPITAL, HEALTHCARE, PHARMACEUTICAL & MEDICAL INNOVATION PARTNER TARGETS

Hospitals • Pharma/Biotech • Health Plans • Pharmacies • Medical Technology • Dental/Vision • Diagnostics • Health Services

Purpose: Give Student Fellows a structured healthcare prospect universe for sponsorship, scholarships, STEM exposure, healthcare careers, mentors, community-health education, awareness and appropriate in-kind support. Healthcare outreach should emphasize **education, opportunity, science, innovation and community wellbeing** — not requests for prescription medicines.

Important: These organizations are prospecting targets only and are not confirmed partners. Fellows must verify current programs, eligibility, contacts and policies before outreach. Medical advice, patient information, prescription products, clinical services or health claims must never be promised. Any health-related programming involving students requires leadership review.

HOSPITALS & HEALTH SYSTEMS

#	Pri.	Organization	Who to Find	Contribution	Recommended Angle
1	A	Northwell Health	Community Relations / Community Health	CASH	Community health, careers, mentors
2	A	NYU Langone Health	Community Service / Education	CAREER	Health careers, mentors, student exposure
3	A	NewYork-Presbyterian	Community Affairs / Health Education	CASH	Community health, careers, awareness
4	A	Mount Sinai Health System	Community Affairs / Education	CAREER	Medicine, research, careers, mentors
5	A	Montefiore Einstein	Community Affairs / Education	CASH	Bronx/community health and careers

124	B	American Pharmacists Association	Foundation / Education	CAREER	Pharmacy careers and health education
125	B	Biotechnology Innovation Organization	Workforce / Education	STEM	Biotech careers, innovation and STEM

Healthcare Outreach Rules for Fellows

Hospitals: Ask about community benefit, workforce development, career exposure, mentors and education. **Pharmaceutical/biotech:** Focus on STEM, scientific careers, innovation, scholarships and community health — never request prescription drugs. **Health plans:** Focus on community health, youth opportunity and awareness. **Pharmacies:** Explore local awareness, education and age-appropriate in-kind support. **Medical technology:** Emphasize engineering, robotics, AI, diagnostics and problem-solving. **Dental/vision:** Explore education, career exposure and appropriate products/services through approved channels.

Potential Leadership-Level Concepts

Possible future sponsored recognitions include a **Community Health Innovation Award**, **Healthcare & STEM Award**, or **Future Health Careers Scholarship**. Fellows may discuss these only as internal concepts unless program leadership has approved the name, sponsor benefits and terms.
