MASTER OUTREACH TRACKER & CRM GUIDE

Student Impact Challenge • Google Sheets / CRM Operating Standard

Purpose: Create one source of truth for every organization, decision-maker, email, phone call, LinkedIn contact, follow-up, meeting, proposal, sponsorship discussion and confirmed partnership. The tracker prevents duplicate outreach, forgotten follow-ups and opportunities being lost when multiple Student Fellows are working at the same time.

THE NON-NEGOTIABLE RULE

If it is not in the tracker, it did not happen. Every meaningful outreach action must be recorded the same day. Every active prospect must have an owner, current stage, next action and next-action date.

5. DATA-ENTRY RULES

One organization = one master row. Multiple contacts belong in the Contacts tab, not duplicate master rows. Search before adding a new prospect. Use the organization's official name. Never guess a person's title, email or contribution capacity. Use dates consistently. Keep notes factual and professional. Do not store passwords, private student information, health information, immigration case information, credit data or other sensitive personal information in the outreach tracker.

Every active row requires a Next Action + Next Action Date. "Follow up" is too vague. Write: "Call community-relations office to confirm sponsorship contact" or "Send one-page overview requested by Maria."

6. ACTIVITY LOG STANDARD

Recommended fields: **Date/Time | Prospect ID | Organization | Fellow | Channel | Contact Person | Activity Type | Summary | Result | Next Action | Next Action Date.** Channels should use controlled values such as Email, Phone, LinkedIn, Contact Form, Referral, Meeting or Other.

The activity log answers a simple question: **What exactly happened with this prospect, and when?**

7. DUPLICATE & OWNERSHIP RULES

Before contacting any organization, search the Master Pipeline. If another fellow owns it, do not independently contact the same organization. Coordinate with the owner or supervisor. If two fellows discover different contacts at the same company, keep one master organization and add both contacts under it.

Ownership can be reassigned by leadership, but the historical activity must remain visible. Never delete prior activity merely because a different fellow takes over.

8. LEADERSHIP ESCALATION FLAG

Set **Escalated to Leadership = YES** when the organization requests a meeting, sponsorship package, specific financial discussion, contract/MOU, tax/W-9/501(c)(3) documents, COI, exclusivity, naming rights, logo approval, media announcement, student data, celebrity involvement, scholarship administration, travel, or another commitment the fellow is not authorized to make.

9. DASHBOARD — WHAT LEADERSHIP SHOULD SEE

KPI	Definition
Total prospects	Count of unique organizations in Master Pipeline.
New this week	Prospects added during reporting period.
Contacted	Unique organizations with initial outreach.
Response rate	Responded ÷ contacted.
Qualified leads	Real opportunities with correct fit/contact.
Meetings	Scheduled/completed meetings.
Meeting conversion	Meetings ÷ contacted or qualified.
Proposals / asks	Specific support discussions.
Confirmed partners	Completed/approved partnerships.
Cash committed / confirmed	Track separately; do not inflate.
In-kind value	Estimated and confirmed values separately.
Awareness partners	Confirmed distribution/recruitment partners.
Mentor/experience partners	Confirmed speakers/experiences.
Pipeline by stage	Number/value at each stage.
Performance by fellow	Activity + conversions, not volume alone.
Performance by industry	Which categories respond/convert best.
Overdue follow-ups	Active prospects past Next Action Date.

10. WEEKLY CRM HYGIENE

At least once per week: remove/merge duplicates; correct missing owners; identify overdue next actions; verify meetings/proposals; move dead leads to Closed or Nurture; confirm that commitments have documentation; review stale A1/A2 prospects; audit notes for professionalism; and check that fellows are not hoarding inactive prospects.

11. SAMPLE MASTER ROW

Field	Example
Organization	Example Community Company
Priority	A2
Fellow Owner	Student Fellow A
Contact	Jordan Smith — Director, Community Partnerships
Why Fit	Supports youth entrepreneurship and serves NY communities.
Primary Ask	Statewide awareness partnership + sponsorship conversation
Stage	RESPONDED
Last Action	8/9/2026 — contact replied and requested program overview
Next Action	Send approved one-page overview and propose 20-minute call
Next Action Date	8/10/2026
Escalated?	YES — meeting/sponsorship interest

12. WEEKLY FELLOW REVIEW QUESTIONS

Each fellow should be able to answer: **What are my top 10 active opportunities? Which organizations owe us a response? Which follow-ups are due today? Which prospects need leadership? What meetings did I create? What did I learn about which industries respond? What is the next action on every A1 and A2 prospect?**

13. FINAL CRM STANDARD

The purpose of the tracker is not to create administrative work. It is to create **institutional memory and accountability**. A strong CRM means another authorized team member can open the tracker and immediately understand who was contacted, what was discussed, what was promised, what is pending and what should happen next.
