160 AMUSEMENT PARK, THEME PARK, WATER PARK & FAMILY ATTRACTION TARGETS

Theme Parks • Northeast Attractions • Water Parks • Indoor Entertainment • Ride Manufacturers • Fairs • Zoos/Aquariums • Interactive Attractions • Resorts

Purpose: Build a high-energy partner category capable of adding significant value to the Student Impact Challenge through **cash sponsorship, admission tickets, family passes, winner experiences, teacher prizes, STEM education, career exposure and in-kind support**. An in-kind donation can materially increase the total participant experience without requiring the program to purchase every prize.

Important: These are prospecting targets, not confirmed partners. Fellows must verify current official contacts and donation/community programs. Never advertise tickets, trips, passes, hotel stays or experiences as prizes until leadership has written confirmation of the donation, restrictions, expiration dates, taxes/fees, age rules and any transportation or safety requirements.

MAJOR THEME-PARK & ATTRACTION COMPANIES

#	P	Organization	Who	WHY FIT	PRIMARY ASK	VALUE TYPES

How Fellows Should Make the Ask

Do not lead only with money. For attractions, the easiest first “yes” may be admission tickets, family passes, group experiences, gift cards, behind-the-scenes experiences or educational access. Ask whether the organization has a community-donation, charitable-giving, group-sales, education or partnership program. For major corporations and park operators, a separate cash sponsorship conversation may also be appropriate.

Turning Entertainment Into Education

Use the educational connection: roller coasters demonstrate physics and engineering; water parks involve water systems, safety and operations; attractions require marketing, hospitality, logistics and crowd management; zoos and aquariums connect to conservation and science; family entertainment businesses demonstrate entrepreneurship and customer experience. Fellows can request qualified speakers or approved behind-the-scenes career experiences in addition to prizes.

In-Kind Value Tracking

When an organization offers tickets or experiences, record **quantity × documented/standard value** in the CRM as estimated in-kind value, then have leadership confirm the appropriate valuation. Keep cash and in-kind support separate in reporting. Never inflate the public value of a donation.
