

DOCUMENT 32

265 FINAL STRATEGIC GAP TARGETS

Media • Billboards • Engineering • Robotics • Semiconductors • Accessibility • Education Services • Publishing • Health Professionals • Workforce • Maritime • Space • Parent Networks • Event Infrastructure

Purpose: Close the most important remaining gaps in the Student Impact Challenge outreach universe before the team shifts from category expansion to prioritization and execution. This document emphasizes five strategic outcomes: **media reach, STEM/problem-solving, inclusion, student/family distribution and operational support.**

Strategic rule: Not every valuable partner writes a check. Donated media, accessibility expertise, student distribution, engineering mentors, venue space, books, technology, translation, event services and professional expertise can each materially strengthen the program. Fellows should record cash and in-kind value separately and never announce a partner until confirmed.

ADVERTISING, PR, MARKETING & CREATIVE AGENCIES

265	B	Aramark Sports + Entertainment	Community / Partnerships / Social Impact	Can reduce event costs and strengthen final awards experience	Venue, ticketing, catering, production, cash

Top Strategic Priorities

1. Accessibility & inclusion: involve disability and accessibility organizations early so recruitment, communications, events and submissions can be designed to include more students. **2. Media & out-of-home:** pursue donated visibility as aggressively as cash; major donated inventory can transform awareness. **3. Engineering/robotics/semiconductors:** these organizations directly embody identifying problems and building solutions. **4. Parent/family networks:** prioritize distribution channels that can reach hundreds or thousands of families through trusted relationships. **5. Event infrastructure:** reduce program costs by seeking donated venues, production, ticketing and catering.

Stop Expanding — Start Prioritizing

After Document 32, new categories should be added only when leadership identifies a clear strategic gap. The next recommended document is a **First 500 Organizations to Contact** prioritization plan, ranking prospects from the full outreach library by likelihood of producing funding, prizes, student participation, awareness, strategic credibility or operational value.
