EMAIL ATTACHMENTS & OUTREACH MATERIALS PROTOCOL

What to Attach - When to Send It - When to Send Nothing

CORE RULE

Every attachment must have a specific job. Do not attach materials simply because they exist. First outreach should be easy to read, easy to trust and easy to respond to.

1. The Attachment Decision Tree

Question	Action
Is this a generic contact form?	Usually send NO attachment. Use the form to reach the correct person.
Is this a first cold email?	Usually attach 0-1 concise document. Never dump the full outreach library.
Does the recipient need to understand the program quickly?	Use the approved one-page program overview.
Can the recipient distribute the opportunity to students/families?	Use the student recruitment flyer or community partner one-pager.
Are we opening a serious funding conversation with the correct decision-maker?	Use a brief sponsorship overview if approved; save the full deck for interest or request.
Did the prospect ask for sponsorship information?	Send the approved sponsorship package/deck plus only the most relevant supporting document.
Is this a media contact?	Use the fact sheet/media kit when useful; provide large photos/assets by approved link rather than oversized attachments.
Is the ask primarily tickets, products, rooms, travel, meals, devices or experiences?	Use the in-kind & experience partnership sheet.
Did we just have a meeting?	Send only the materials discussed, with clear next steps.

2. Approved Outreach Attachment Library

ID	Material	Primary Job	When to Use
A	Student Impact Challenge - One-Page Overview	Universal background document	What it is, ages 10-20, statewide scope, how it works, \$100K+ opportunity, registration, nonprofit operator and contact.
B	Student Recruitment Flyer	Distribution to students/families	Schools, libraries, youth organizations, community centers, elected officials and community partners.
C	Community Partner One-Pager	Non-financial community partnerships	Explains how an organization can help spread awareness without a financial commitment.
D	Corporate Sponsorship Overview	Qualified funding prospects	Short introduction to sponsorship opportunities; not necessarily the full sponsorship deck.
E	In-Kind & Experience Partnership Sheet	Product/experience prospects	Tickets, products, meals, rooms, flights, devices, supplies, event space, tours and experiences.
F	Media Kit / Program Fact Sheet	Media, PR and communications contacts	Approved program facts, founder/program background, key dates, contact information and approved media resources.
G	Full Sponsorship Deck	Engaged/qualified sponsor leads	Use after interest, request, meeting, or when program leadership approves sending it.
H	Nonprofit / Organizational Documentation	Due diligence stage	Only when requested or required. Use current approved documents and leadership review.

3. First-Contact Rules by Prospect Type

Prospect	Recommended Material	Max First Contact	Reason
Community organization	One-page overview OR community partner sheet	Usually 1	Goal is awareness/distribution, not overwhelming them.
School / youth organization	Student flyer + optional one-page overview	1-2	Give them something immediately shareable.
Major corporation - cold contact	One-page overview or nothing	0-1	Get the correct person and open the conversation first.
Qualified sponsor decision-maker	Corporate sponsorship overview	1	Give enough context to create interest.
Bank / foundation application	Whatever the official process requires	As required	Follow the funder's instructions exactly.
Law / consulting / professional firm	One-page overview; sponsorship overview only if appropriate	0-1	Lead with alignment, mentorship or funding conversation.
Sports team / stadium	One-page overview or in-kind sheet	0-1	Lead with student experience/recognition.
Hotel / airline / restaurant	In-kind & experience sheet	1	Make the requested contribution concrete.
Radio / TV / journalist	Fact sheet/media kit	0-1	Provide fast background; do not overload editorial contacts.
University	One-page overview or education/community partner sheet	1	Focus on scholarships, mentors, campus exposure or awareness.

4. When NOT to Attach Anything

Send no attachment when: you are only trying to identify the correct contact; a contact form does not support files; the recipient has not yet shown relevance; the attachment would duplicate everything in the email; the file is outdated or not approved; the file is very large; the email already contains multiple links and requests; or the organization has a formal application portal that must be used instead.

5. When to Send the Full Sponsorship Deck

The full sponsorship deck is a second-stage document. Send it when the prospect requests sponsorship information, confirms they are the correct decision-maker, agrees to review opportunities, schedules/finishes an introductory meeting, or program leadership specifically approves it. Do not automatically send the full deck to every wealthy company.

6. How to Mention an Attachment in the Email

Community: "I've included a one-page overview that you're welcome to share with your team."

Corporate: "I've included a brief overview for context, and I'd be happy to provide our full partnership information if there is interest."

Media: "I've included a program fact sheet for background and can provide additional approved photography and program materials upon request."

In-kind: "I've included a short overview of the experience partnership opportunity so your team can quickly see what we are hoping to explore."

7. AI Prompt - Decide What to Attach

I am preparing a first outreach email for the Student Impact Challenge. PROSPECT: Organization: [NAME] Category: [CATEGORY] Contact role: [ROLE] Primary ask: [CASH / IN-KIND / AWARENESS / MENTORSHIP / EXPERIENCE] Stage: [COLD / REFERRED / INTERESTED / AFTER MEETING] Available approved materials: A. One-page program overview B. Student recruitment flyer C. Community partner one-pager D. Corporate sponsorship overview E. In-kind & experience partnership sheet F. Media kit / fact sheet G. Full sponsorship deck H. Nonprofit documentation Tell me: 1. Should I attach nothing, one document, or at most two? 2. Which exact approved document(s)? 3. Why? 4. What should I NOT send yet? 5. Give me one natural sentence to reference the attachment in the email. Do not invent any documents, facts, partnership status or requirements.

8. File Naming Standards

Attachments should look professional before the recipient even opens them. Use clear names such as:

Student_Impact_Challenge_Program_Overview.pdf
Student_Impact_Challenge_Community_Partner_Overview.pdf
Student_Impact_Challenge_Corporate_Partnership_Overview.pdf
Student_Impact_Challenge_Media_Fact_Sheet.pdf
Student_Impact_Challenge_In_Kind_Partnerships.pdf

Avoid names such as **finalfinal2.pdf**, **new flyer edited.pdf**, **IMG_3382.pdf**, or internal draft labels.

9. Attachment Quality & Security Checklist

■ Current approved version?	■ Correct dates, prize language and registration URL?
■ No typos or broken QR code?	■ Correct nonprofit/program naming?
■ No confidential/internal notes?	■ No private student information?
■ No unapproved sponsor logos?	■ Reasonable file size?
■ Professional filename?	■ Does the attachment directly support this email's ONE ask?

10. Fellow Authority & Escalation

The fellow may send approved public-facing outreach materials according to this protocol. The fellow must escalate before sending: full sponsorship decks when leadership has restricted distribution; budgets; contracts; tax documents not already approved for distribution; banking information; legal documents; customized sponsorship benefits; naming-rights proposals; confidential program information; or any material containing another organization's logo before permission is confirmed.

11. Simple Rule to Remember

COLD = LIGHT. Keep first outreach easy.

INTEREST = MORE DETAIL. Send the relevant partnership material.

REQUEST = RESPOND PRECISELY. Send what they asked for.

NEGOTIATION / DUE DILIGENCE = ESCALATE. Program leadership takes over.
